

Gulf MACH 100 Unleaded

DESCRIPTION

Gulf makes the MACH 100 for unleaded engines not requiring a high octane race gas. The MACH 100 is made in the same high-quality manner and has excellent detonation resistance. Gulf makes its MACH fuels with an additive package that replaces lead so the fuels act more like a leaded fuel than an unleaded gas. There is no oxygenate in the gasoline – it is ethanol-free. Gulf MACH 100 will not harm oxygen sensors or catalytic converters. The Gulf MACH 100 meets the minimum octane requirements of Lycoming, Continental and ROTAX for their latest generation of engines.

HEALTH AND SAFETY

This is a flammable liquid and must be kept away from open flames and ignition sources. This product contains tetraethyl lead and other components that are harmful and cause irritation upon contact. Do not ingest or breathe the fuel or its vapors. Wash away any fuel upon contact. Have adequate venting of vapors. Wear eye protection. Empty containers should be properly marked and disposed.

TYPICAL CHARACTERISTICS

RVP	4.0 - 6.8
Oxygen Vol%	0
Specific Gravity	0.78
Color	Clear to Yellow
R+M/2	100
RON	106
MON	94
