## Gulf Racing Fuels Going to the Track

### *Named Official Fuel of MSR Houston*

**(Houston, TX) February 1, 2016** – Today, [Gulf Racing Fuels](http://www.gulfracingfuels.com) announced that it has been selected as the Official Fuel of MSR Houston Race Track, a private membership country club race track in Houston, Texas.

The track will offer the new Gulf ethanol-free gasolines - EPA Approved Gulf 93 and Gulf 100 with Isobutanol - a key factor in MSR Houston making the switch to Gulf Racing Fuels. Gulf will also deliver high octane Legend 116 leaded racing fuel at the pump.

Gevo, Inc. (NASDAQ: GEVO) supplies Gulf with the bio-isobutanol produced at its fermentation plant in Luverne, Minnesota. Lee Oil Co. is the supplier of Gulf fuels to the track from its bulk plant located nearby in Alvin, Texas.

MSR Houston is FIA and INDY Test Track approved and sits on 383 acres that include 75,000 square feet of garage space, a 90,000 square foot skid pad, a 2.38 mile road course, and a 0.7 mile go kart facility. The track is expanding into a full resort destination with resort styled villas, state-of-the-art garage and private viewing space, restaurant, spa and pool.

MSR is also home to the Fittipaldi Exotic Driving Experience and the Texas franchise for Radical Super Cars (UK). MSR Houston hosts races for a variety of motorsports sanctioning bodies such as Indy Lites, CMRA Motorcycles, Radical Race Series, CVAR, SCCA, NASA, World Racing League, and PCA. Several on-track schools also call MSR Houston home, teaching teen drivers, law enforcement and racing drivers how to handle cars in a variety of conditions.

When the track is not in use for sanctioned motor racing events it is available exclusively to its members and for corporate events.

### **About MSR Houston**

A privately owned country club track where members can use the FIA Approved road course to test and improve their driving skills in a resort style facility. Located just 35 minutes south of Houston, the facility is located on 383 acres and includes a 2.38 mile track, a go kart facility with its own 0.7 mile track that includes a NASCAR styled curve, surrounded by 70,000 square feet of custom designed garages with integrated second story viewing suites. Membership is exclusive, with opportunities available to join the membership waiting list.

**About Gulf Racing Fuels:**

The "Legend is Back." [Gulf Racing Fuels](#) has returned to the track with its new racing fuels designed for legendary vintage and historic racing cars, as well as the latest racing and street cars. Gulf Racing Fuels include high octane unleaded and leaded fuels as well as marine and small engine fuels featuring Isobutanol. All fuels are distributed nationally by HYPERFUELS based in Houston, Texas.
